Tricks for using Web of Knowledge databases to find neuropsychology articles

- Access Web of Knowledge here: [http://uflib.ufl.edu/ps_db.html](http://uflib.ufl.edu/ps_db.html)
- Recommended databases are circled below:

**WEB OF SCIENCE™**

- **All Databases**
  - Web of Science™ Core Collection
  - BIOSIS Citation Index™
  - CABI: CAB Abstracts®
  - SciELO Citation Index
  - Zoological Record®

This database is a subset of PubMed.

Example of how to set up a search in BIOSIS Citation Index:

- **Basic Search**
  - Psychiatry
  - Hominidae
  - fluphenazine

- **Major Concepts**

- **Taxonomic Data**

- **View Major Concepts**

- **View Taxonomic Data terms**

- **TIMESPAN**
  - All years
  - From 1926 to 2014

Lets you search and select terms from controlled vocabularies, which may return more relevant results.
How to use Medical Subject Headings (MeSH) in MEDLINE:

- Automatically adds MeSH headings to your topic search.
- Lets you browse and choose from a list of MeSH headings.

**Basic Search**

Example: Sleep Deprivation/diagnosis

**MeSH Heading**

- Topic - Add MeSH
- Topic - Add MeSH (No Explode)
- Title
- Title - Add MeSH
- Title - Add MeSH (No Explode)
- MeSH Heading
- MeSH Heading (No Explode)
- MeSH Major Topics

**MeSH Thesaurus**

Use the Find and Browse features to locate terms to add to your query.

Enter text to find terms containing or related to the text. Example: sleep* to find Sleep Paralysis and Night Terrors

- depression

**Results Page 1 (Terms 1 - 14 of 14)**

- Add = add to query
- H = view in hierarchy
- d = view details including qualifiers

- Add: Depression
- Add: Depression, Chemical
- Add: Depressive Disorder, Major
- Add: Depressive Disorder
- Add: Respiratory Insufficiency
- Add: Cortical Spreading Depression
- Add: Tooth Movement
- Add: Depression, Postpartum
- Add: Long-Term Synaptic Depression
- Add: Economic Recession
- Add: Depressive Disorder, Treatment-Resistant

**Results Page 1 (Terms 1 - 14 of 14)**

- Back to top

Transfer your selected term(s) below to the MeSH Field field on the search page.

- Depression

Type a term in the search box and click Find.

If you are not sure what a term means, click D next to the term to see its definition.

Select a heading that closely matches your research topic and click Add.

The heading you select will appear here. Click OK to return to the search screen.
Advanced Search lets you restrict your search results in a variety of ways (language, publication type, date range, etc.) before running your search.

Enter MeSH heading search string

Select search options below
Click the results number to see the list of records.

You can further refine your results by selecting more headings and qualifiers.

Click the Find It @ UF button to locate the full text of an article.

Click the Find It @ UF button to locate the full text of an article.
