Advanced Search Screen

- Search History (Separate tutorial)
- Search by specific fields
- Limit function (Separate tutorial)
- Index field search
  - Shows how many results for a term in a specific field
- Links to special types of searches & resources
- Search Details
Details

Clicking on details allows you to see how PubMed interpreted what you typed in.
Search History

Search History will be lost after eight hours of inactivity.
Search numbers may not be continuous; all searches are represented.
To save search indefinitely, click query # and select Save in My NCBI.
To combine searches use #search, e.g., #2 AND #3 or click query # for more options.

See PubMed Search History Tutorial
This is where you can search by a specific field. You use the drop down menu to select the field, type your term in the box, select (AND) or (OR) then click the search button to run the search.
Search By Field

Search by Author, Journal, Publication Date, and more

Fill in any or all of the fields below, as needed.

- All of these (AND)
- Any of these (OR)

Author: Doering PL
Journal: annals of pharmacotherapy
Publication Date: From [ ] to [present]

(yyyymm/dd - month and day are optional)

Add More Search Fields

Clear All  Search
If you click on the index button after you type in the term you get a list of terms with the number of times it appears in PubMed. Select the one you want by clicking on it. Hold the control key down to select more than one to add to the search.
Limit Function

Do not use these limits while a student

See Limits tutorial for more information
Hold down the control key to select more than one item from the index. Click on And, Or, or Not to send your selections to the search box.
